

XR Peace key messages

Militarism is a central pillar of the extractive systems causing Climate Change

Up to 6% of global greenhouse gases are from military activity

Climate change causes war <-> War causes climate change

Nuclear weapons are the twin existential threat to humanity and the planet

To address the climate crisis we must end militarism

Demands

XR Peace demands the government works to reduce international tensions, avoids war as a method of resolving conflict, eliminates nuclear weapons, dramatically reduces military spending and redirects resources currently in the MOD budget to address the threat of climate catastrophe that now faces all peoples of the earth
